

# CAHED

Colorado Association of Healthcare Engineers and Directors

## OUR MISSION

- ADVANCE the development of effective Healthcare Engineering Management
- STIMULATE the exchange of information and further professional and personal development
- PROVIDE educational opportunities to enhance the capabilities of professionals in supporting the environment of care

## WHY JOIN CAHED?

### As a participating member, you will:

- Evaluate the impact that healthcare trends and processes have on your facility's design and operational budget.
- Be aware of current legislation to assure that your facility is in compliance.
- Create business management systems that are effective.
- Have several formal and informal opportunities for networking.
- Participate with, and have access to, nationally recognized experts in the areas of healthcare engineering, safety and security.

## WHO SHOULD ATTEND?

Facility managers, project managers, engineering/maintenance personnel, administrators, safety and emergency management professionals, risk managers, architects, and engineers. Anyone involved with facility or construction management or the operation of a health care facility.

### DIVERSE TOPICS

- TJC Compliance
- Construction Management
- Infection Control
- Energy Management
- Patient Safety
- Facilities Management
